PROFESSIONAL PROFILE

Dynamic, results-driven Digital Branding Professional and BBIT graduate (Second Class Upper) with over seven years of expertise commanding the intersection of visual communication, print publishing, and front-end web technologies. Proven master in translating complex client concepts into high-converting marketing collateral, corporate brand ecosystems, and responsive digital products. Unique technical edge combines an expert eye for typography, spatial layout, and color theory with a meticulous understanding of pre-press production requirements (including bleed constraints, CMYK color profiles, and high-resolution asset exporting). Adept at managing high-volume design workflows, meeting rigid operational deadlines, and scaling cohesive brand identities across print and digital media.
